OBJECTIVE

Full-Stack Developer with strong skills in TypeScript, Next.js, Node.js, Express, PostgreSQL, and MongoDB. I enjoy building fast, clean, and user-friendly web apps. Looking to join a team where I can grow and help create smart, reliable tech solutions.

PROJECTS

1. **ReviewHub (***Team Project - Team leader***)**   Client-repo   Server-repo   Preview

   A full-featured platform where users can create accounts, post and rate product reviews, vote, comment, access premium content, and make secure payments — all with admin moderation and control.
   Features: Real-time updates, analytics dashboard, secure authentication, SSL payments, and full customization.
   Technologies used: Next js, Shadcn Ui, PostgreSQL with Prisma, Next Auth, Node js, Express, SSL.

2. **JOBIFY (***Team Project***)**   Client-repo   Server-repo   Preview

   Jobify, is a job portal that makes job searching and hiring easier. Job seekers can quickly find jobs that match their skills, and employers can easily manage applications and connect with the right people.
   Features: Advanced job search, resume builder, user profiles, ATS, Job alerts, In-app messaging, career roadmap generator, and multilingual support.
   Technologies used: React, Redux, Node Js, Express JS, MongoDB, Firebase, Tailwind CSS, JWT.

3. **Gulf Basket**   Client-repo   Server-repo   Preview

   Gulf Basket is a user-friendly e-commerce platform for seamless shopping with secure login, role-based access, and easy product management.
   Features: Advance search, Realtime product update, Customizable, Secure payment .
   Technologies used: React JS,Redux, Tailwind CSS, Shadcn UI, NodeJS, Express JS, MongoDB, Mongoose, Zod , JWT.
